

Technology at Work for You

CONNECTING YOUR BUSINESS TO THE TECHNOLOGY YOU NEED

Automated ID is created by programmers that understand the needs, requirements and unique challenges that come with:

- Inspections
- Maintaining inventory
- Moving products around the country or around the world
- Accessing documents in the field

Automated ID is the flexible solution for your business needs.

INSPECTIONS

Automated ID offers the fastest and most comprehensive inspection software available.

- Conduct inspections in minutes
- Generate inspection reports in seconds
- Documents become available to all users in PDF format with the push of a button

INVENTORY CONTROL / MOVING PRODUCTS

Automated ID's state of the art hardware and software instantly provides quantities and locations of inventory, around the globe.

CERTIFICATION RETRIEVAL

- Certification documents can be retrieved from the web or directly from your smart phone... (cuz stupid phones don't work)
- All pertinent documentation is available to the users in a PDF format

OUR COMMITMENT

WE BELIEVE THAT IT IS OUR JOB TO PROVIDE YOU WITH:

- Technical Training
- 24/7 technical support
- Data integration
- Latest computer technology
- Multiple scanning methods
- Barcode and RFID technology

Automated ID Tools

IN THE FIELD:

Smart Phones

- By far the easiest way to:
- Control your inventory
 - Conduct inspections
 - Create and send inspection reports
 - Attach pictures to the inspections
 - Retrieve certification documents

WBR800

Bluetooth hands free RFID reader designed to work with smart phones and tablets.

IDBlue

Bluetooth RFID reader
Ergonomic pen style shape, small and lightweight, fits conveniently in your pocket. Works with smart phones and tablets.

IN THE WAREHOUSE / OFFICE:

DELL Duo

"Get the best of both worlds."
It can be used as a touch screen tablet and/or a laptop

WASP Barcode Scanner

The WASP is used to scan barcodes on documents and linking them to the RFID's located on corresponding products.

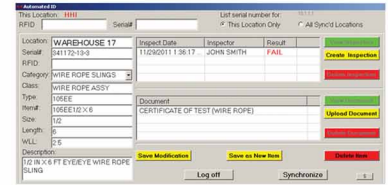

SLR200 USB Scanner

No setup required
The SLR200 simply plugs into a computer / laptop

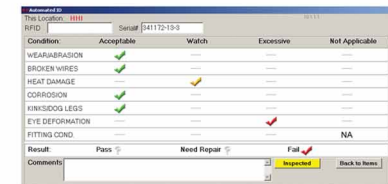

Automated ID Mobile

The Automated ID Mobile application is intuitive - easy to use - requires minimal training to operate.

THE MAIN SCREEN

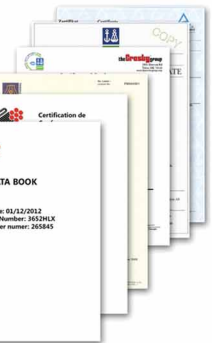

THE INSPECTION SCREEN

DOCUMENTS

All documents are literally at your fingertips:

- Inspection reports
- Testing certificates
- Inventory reports
- Certificate of conformance
- Any other related documents or pictures

The access is:

**SIMPLE
FAST
RELIABLE**
